Why Us

- **We are local!**, therefore local support is just around the corner, we are here to help with 24/7 phone support answered by a human (not a machine) and no overseas call centers to deal with ever. We also have experienced Techs-on-the-ground ready and on-call to assist when required.
- We have the **Highest Security** and network grade architecture of any available service in the area. All connections on our network are Enterprise Grade and feature Outage Redundancy, Encrypted Authentication, Dedicated fibre with 1:1 Contention and no splitting.
- We can have you connected quickly, and we will not interrupt any of your current services (phone or internet) that might already be active, so effectively **Nil downtime** if switching to us.
- Our network uses **Gigabit Optic Fibre** to the Premises Technology to deliver you superior, low latency internet connectivity. An optic fibre modem is included in your connection fee. A router is required.

We're here to help 24/7. If you have any questions, just call us on **1800 40 20 10** so we can serve you better or you can visit us at GBNCo.com.au for additional information.
